WHOLE GRAIN SYSTEM®

Always moving forward to exceed our customers expectations. The Whole Grain System® integrates a 2200 Series Drive-Over to quickly unload your trucks with a 2200 Series Tube Conveyor. This high capacity system is perfect for piling or loading your bins quickly and efficiently.

Available Lengths: 75', 85', or 95' with 2200 Series Drive-Over

Capacity: Up to 10,000 BPH
(Capacity depends on material, moisture, density and angle)

Tube Conveyor S-Drive Option: PTO
Drive-Over Drive Option: Hydraulic

Standard Accessories:

- Wind Guards
- Self-Contained Hydraulic Kit
- Hydraulic Cooler
- Hydraulic Wing Package
- Extendable Axle

Optional Accessories:

- Bottom guards
- Walkover platform
- 90-degree spindle kit

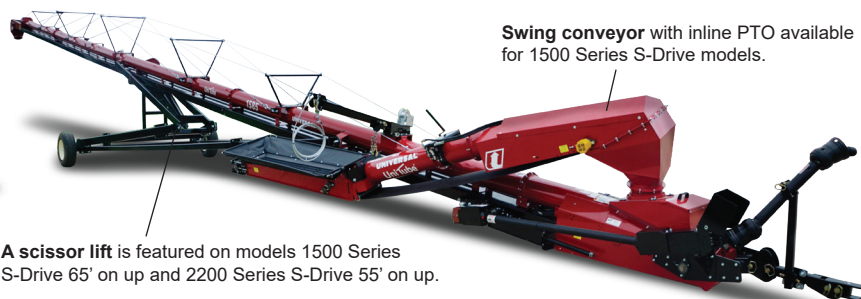

TUBE CONVEYORS

1535 Tube Conveyor

Engineered for gentle handling of seed and grain, the standard Tube Conveyor features a collapsible hopper, perfect for loading and transferring commodities into bins, trucks, and trailers.

(Available in carbon or stainless steel construction)

Swing conveyor with inline PTO available for 1500 Series S-Drive models.

A scissor lift is featured on models 1500 Series S-Drive 65' on up and 2200 Series S-Drive 55' on up.

Model	Available Lengths / Discharge Height*	Capacity** (Bushels Per Hour)	Drive Options
1500 Series Top Drive	25' (10' DH), 30' (12' 2" DH), 35' (14' 3" DH), 40' (16' 4" DH), 45' (18' 6" DH), 50' (20' 6" DH)	Up to 6,000 BPH	Electric Top Drive Hydraulic Top Drive Dual Top Drive Gas Direct Drive
1500 Series S-Drive	65' (27' 1.5" DH), 75' (31' 4" DH), 85' (35' 6.75" DH), 90' (37' 8.25" DH), 105' (46' DH), 110' (46' 1.5" DH)	Up to 6,000 BPH	PTO Electric
2200 Series S-Drive	35' (14' 6" DH), 45' (18' 11" DH), 55' (22' 11" DH), 65' (27' 2" DH), 75' (31' 5" DH), 85' (35' 9.5" DH), 95' (40' .5" DH), 110' (46' 1.25" DH), 120' (50' 3.75" DH)	Up to 10,000 BPH	PTO Electric

SELF-PROPELLED FIELD LOADERS

1547 Field Loader with Gas Powered Self-Propelled Kit

Portable belt conveyor with a gas or diesel drive self-propelled kit. The Self-Propelled Kit features a self-contained hydraulic self-propel package that allows control of all field loader functions, including steering to easily maneuver and drive your Field Loader across the ground. It also allows hydraulic running of the belt and raising and lowering to the appropriate filling height, all from the same valve as the steering and propel functions.

(Available in carbon or stainless steel construction)

Model	Available Lengths / Discharge Height*	Capacity** (Bushels Per Hour)	Drive
1500 Series with Gas Powered Self-Propelled Kit	37' (14' 9.5" DH), 47' (19' .25" DH)	Up to 7,500 BPH	26.5HP Kohler Fuel Injected Gas Engine
1800 Series with Gas Powered Self-Propelled Kit	37' (14' 10.5" DH)	Up to 9,000 BPH	26.5HP Kohler Fuel Injected Gas Engine
2200 Series with Diesel Powered Self-Propelled Kit	47' (19' 1.5" DH)	Up to 11,000 BPH	45HP Tier IV Final Yanmar Diesel Engine

* Discharge height shown is measured with the unit at a 25-degree angle.

** Capacity depends on material, moisture, density and angle.

FIELD LOADERS

1800 Series BinBuster®

A Field Loader conveyor best suits your needs when you need a longer reach with low clearance, such as unloading hopper bottom trucks or bins.

(Available in carbon or stainless steel construction)

Model	Available Lengths / Discharge Height*	Capacity** (Bushels Per Hour)	Drive Options
1500 Series Field Loader	32' (11' 11.5" DH), 37' (14' 9.5" DH), 42' (16' 2.25" DH), 47' (19' .25" DH)	Up to 7,500 BPH	Electric Top Drive Hydraulic Top Drive Dual Top Drive Gas Direct Drive
1800 Series BinBuster®	37' (14' 10.5" DH), 47' (19' 10" DH)	Up to 9,000 BPH	Electric Top Drive Hydraulic Top Drive Dual Top Drive
2200 Series Field Loader	37' (14' 10.75" DH), 47' (19' 1.5" DH)	Up to 11,000 BPH	Electric Top Drive

SHORT FIELD LOADERS®

1800 Series BinBuster® Short Field Loader®

The Short Field Loader® features a low clearance tail, that fits more easily into tight spaces. These units are shorter than our standard Field Loaders and used for unloading in compact or inflexible areas.

(Available in carbon or stainless steel construction)

Model	Available Lengths / Discharge Height*	Capacity** (Bushels Per Hour)	Drive Options
1500 Series - Short Field Loader®	32' (11' 8.5" DH), 37' (14' 6.5" DH), 42' (15' 11.25" DH), 47' (18' 9.25" DH)	Up to 7,500 BPH	Electric Top Drive Hydraulic Top Drive Dual Top Drive Gas Direct Drive
1800 Series BinBuster® - Short Field Loader®	37' (14' 7.5" DH), 47' (19' 7" DH)	Up to 9,000 BPH	Electric Top Drive Hydraulic Top Drive Dual Top Drive
2200 Series - Short Field Loader®	37' (14' 7.75" DH), 47' (18' 10.5" DH)	Up to 11,000 BPH	Electric Top Drive

DRIVE-OVER BELT CONVEYORS

2200 Series Drive-Over Conveyor

Get your grain trucks back to the field quicker with our Drive-Over Conveyors. Our Drive-Overs save time with easy positioning and optional hydraulic controls to raise and lower the hopper, for better material containment.

Optional 5' extension available.

Model	Deck	Capacity** (Bushels Per Hour)	Drive Options
1500 Series Drive-Over	Drive over deck with full 11' 8" hopper area with 15" wide 2-ply chevron belt	Up to 6,000 BPH	Electric Hydraulic Gas
2200 Series Drive-Over	Drive over deck with full 12' hopper area 22" wide 2-ply chevron belt	Up to 10,000 BPH	Electric Hydraulic

TRANSFER CONVEYORS

Uni Filler

Low Profile Transfer Conveyor and Uni Filler are perfect for fitting into tight spaces with easy maneuverability, and offer quick and efficient unloading.

(Available in carbon or stainless steel construction)

Low Profile Transfer

Model	Belt	Capacity** (Bushels Per Hour)	Drive Options
Low Profile Transfer	15" wide 2-ply chevron	Up to 7,500 BPH	Electric Hydraulic Gas
Uni Filler	15" wide 2-ply chevron	Up to 7,500 BPH	Electric Hydraulic Gas

CUSTOM CONVEYORS

1500 Series Pit Conveyor

Custom built Tube Conveyors for a wide array of applications and requirements. Designed to accommodate bulk material handling and gentle, efficient transfer of grain and seed.

(Available in carbon or stainless steel construction)

Model	Discharge Height	Capacity** (Bushels Per Hour)	Drive Options
1500 Series - Pit Conveyor	Min: 22" Max: 65" with 10' Tube Extension	Up to 6,000 BPH	Electric Top Drive Electric S-Drive
2200 Series - Pit Conveyor	Min: 37" Max: 84-1/2" with 10' Tube Extension	Up to 10,000 BPH	Electric Top Drive Electric S-Drive

Model	Belt	Capacity** (Bushels Per Hour)	Drive Options
1500 Series - Custom	15" wide 2-ply chevron	Up to 6,000 BPH	Electric Top Drive Electric S-Drive
2200 Series - Custom	22" wide 2-ply chevron	Up to 10,000 BPH	Electric Top Drive Electric S-Drive
